

Qualex's **Artificial Intelligence Content Services** offers a scalable, personalized way to reach high value customers, create specific messaging to influence a voting public, and build affinity within a sports team and athletes' fan base - utilizing Qualex's **IQ Solutions™** for Government, Retail, Gaming, and Sports.

# Say Their Name

Project Based Collaboration

## Introducing AI-Communicator.

What if you could record a podcast or a video and hook it into your campaign management system so every podcast or video spoke directly to your customers by name. AI could even use the data volunteered by customers to personalize specific content that would build affinity to your brand. Perfect for voter outreach or VIP personalized treatment to high loyalty customers.
